7.1.1 Provide parkland that keeps pace with Barrio Logan’s population growth, through acquisition of available land, development of new facilities, and improvements to existing facilities.

7.1.4 Acquire and develop new park lands through the repurposing of street/alley rights-of-way, where appropriate to provide pocket or linear parks.
7.1.7 Improve waterfront access, linkages and recreational opportunities via a system of public plazas, bike paths, and parks that increase connectivity and improve public access to existing and new parks and public facilities.

7.1.9 Pursue funding sources, including grant opportunities, for the development and improvement of park and recreation facilities within the Barrio Logan Community.
Design all new recreation facilities as part of an inter-connected park and open space system that is integrated into and accessible to the community.
